

# SOLAR PV

## Solar PV Fact sheet

-  You own the system - No rent a roof scheme! the system is fully owned buy you and will not effect the properties ability to be sold or mortgageable unlike some previous scheme
-  Lower Energy bills - Generate your own power and reduce your demand for electric needed from the grid.
-  Generate Income - A Government backed incentive called the smart export guarantee means the power you don't use is exported to the grid which your paid for.
-  Increase EPC - Mortgage lenders and buyers are now looking at properties EPC to aid decisions to buy/lend. It's currently against the law to let a property if the EPC is below E, this is being moved to a minimum of D in 2025.
-  Battery storage - You can opt to fit battery storage to your system, this means your storing what you generate ready for use later when the daylight has gone.
